KEY FEATURES

Self-powered design requires no power outlets, saves energy and money!

18" -25.5" manually adjustable stride length allows for users of any size and recruits more muscle groups

Silent, smooth eddy-current (electro-magnet) resistance

MyFlex™ cushioning system softens each step

Advanced heart rate programs provide a valuable training tool

Optional entertainment screen bracket

The E822 features a clean, easy-to-read dot matrix display with CardioAdvisor™ heart rate tools. Bright LED readouts provide workout feedback.
